

DATACARD ID WORKS® ENTERPRISE IDENTIFICATION SOFTWARE

ID Works Enterprise identification software is ideal for end-to-end management of complex ID programs.

Sophisticated software for professional ID programs

Datacard® ID Works Enterprise identification software provides powerful, user-friendly tools for card design, secure card production and flexible management of complex, integrated ID programs.

High-end capabilities, modular components

- Modular platform. Separate packages for design and production let you distribute tasks effectively and pay only for the features you need at each workstation.
- Biometrics and smart cards. The software offers smart card support (proximity plug-in) to simplify smart card personalization management. You can also design multi-application smart card programs with the ID Works Software Developer's Kit.
- Intuitive design tools. Enterprise software enables you to design cards, reports and production forms with speed and simplicity. Shape drawing, transparent backgrounds and ghost images help customize cards. The application lets you integrate production forms with ODBC-compliant, multiple-table databases. Enterprise Designer software also allows you to access ID information stored in a directory service via the Lightweight Directory Access Protocol (LDAP).
- Enhanced operational productivity. Simple, powerful interfaces make it easy to capture images, enter and retrieve data and print cards and reports.

Datacard ID Works Identification Software Compatibility Feature Set

	INTRO SOFTWARE	BASIC SOFTWARE	STANDARD SOFTWARE	ENTERPRISE SOFTWARE
Image File Input	*	*	*	*
TWAIN Capture / Video for Windows	*	*	*	*
Microsoft Access Database	*	*	*	*
Magnetic Stripes and Bar Codes	*	*	*	*
Ghost Option for Photo Field		*	*	*
Text File Import / Export to Microsoft Access		*	*	*
Modular Packages for Card Design and Production			*	*
ID Works Visitor Manager Software			*	*
Tru Signature			*	*
Multiple-Table ODBC Databases			*	*
SDK Support			*	*
Proximity Card Plug-in for Smart Cards			*	*
SASI and Lifetouch Plug-ins			*	*
Datacard Capture Plug-in Tool		*	*	*

Standard Features

Flexible card, report and production form design

- User-defined card size (CR50, CR80, Custom)
- Auto-create production form
- Shape drawing support
- Font sizing and colors
- Multiple field selection, alignment and formatting
- Copy card and report designs between projects

Field types

- Variable text (with masking); Static text (with word wrap option); Photo (with border, ghost or transparent background option); Date; Bar code (22 types, including PDF417 binary support); Magnetic stripe; Static and variable graphic (with ghost and transparent color options); Non-printable area; List; Composite; Print count; Auto sequence; Signature; Smart card; Binary field; Event button; PDF417 binary bar code support

Image management

- In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)
- Image and signature storage as BLOBs or files
- Multiple images per record
- Crop and adjust existing photo
- Batch import/export photos and images from production

Production and data management

- Data-driven production
- Supports multiple-table databases
- Supports Software Developer's Kit
- Proximity card plug-in
- SASI and Lifetouch plug-ins
- Auto-create Microsoft * Access 2000 database

Database management

- Quick, advanced and stored searches
- Retrieve records from "today"
- Retrieve records from "this week"

Database support

- Oracle * Oracle8i, Oracle9i and Oracle10g *
- LDAP-compliant directory services (such as Microsoft * Active Directory *)
- Microsoft Access 2000 and later
- Microsoft * SQL Server ** 2000 and 2005
- IBM * DB2 * Universal Server 7.1 and 8.1

Help features

- Online user's guide
- Online help
- Help desk support

Security features

- Wizard for managing user account privileges
- USB hardware security key
- Application- or activity-level user security (per computer or system-wide)
- Login timeout feature
- Restrict project access by user
- Secure user audit trail
- Enhanced user password security
- Expiration of password after user-defined number of days

Compatible with the extensive line of Datacard * card printers

Image capture options

- File input
- TWAIN capture devices

Video for Windows capture devices

- Datacard Tru Signature solution
- ID Works Visitor Manager solution
- Datacard Capture Plug-in Tool

System Requirements

Operating system

- Microsoft Windows 2000, XP (32 or 64 bit), Windows Vista (32 or 64 bit), and Windows 7 (32 or 64 bit) operating systems

Web browser

- Internet Explorer v6.0 or later

Memory

- 512 MB RAM
- 100 MB hard disk space for application (not including database)

Color

- 16-bit color (65,536 colors)
- (Cameras may require higher color)

Resolution

- 800 x 600 screen resolution
- (1024 x 768 recommended)

Peripherals

- CD-ROM drive
- Available USB port
