DATACARD® SR200 RETRANSFER CARD PRINTER

The Datacard ® SR200 retransfer card printer offers high-quality single-side retransfer printing in a compact, affordable design.

Cost-effective over-the-edge printing

Ideal for printing high-quality cards, the Datacard® SR200 retransfer card printer delivers full-color, over-the-edge, single-sided printing on a variety of materials. Electronic locks protect input cards and supplies. This highly affordable printer is also durable enough to offer a lifetime warranty on the printhead.

Essential capabilities for high-quality results

- **Improved image quality.** Retransfer printing delivers vivid results with over-the-edge coverage for a wide range of applications.
- **Excellent material compatibility.** Print high-quality images on a range of card materials, including PVC, ABS, PET, PET-G and polycarbonate.
- **Maximum security.** Electronic locks help control access to cards and ribbons, and the security erase feature blocks out black text on used YMCK ribbons to protect sensitive cardholder data.
- **Exceptional ease of use.** The SR200 printer offers easy loading of cards and color-coded ribbon cartridges. The display panel also provides timely status information to the user.
- **Maximize security and durability.** Protect cards from threats and help extend card life with the optional Datacard® LM200 card laminator, which applies Datacard® topcoats and DuraGard® laminates.
